Cliffs Notes

Series of study guides providing summary and explanation of literary works.

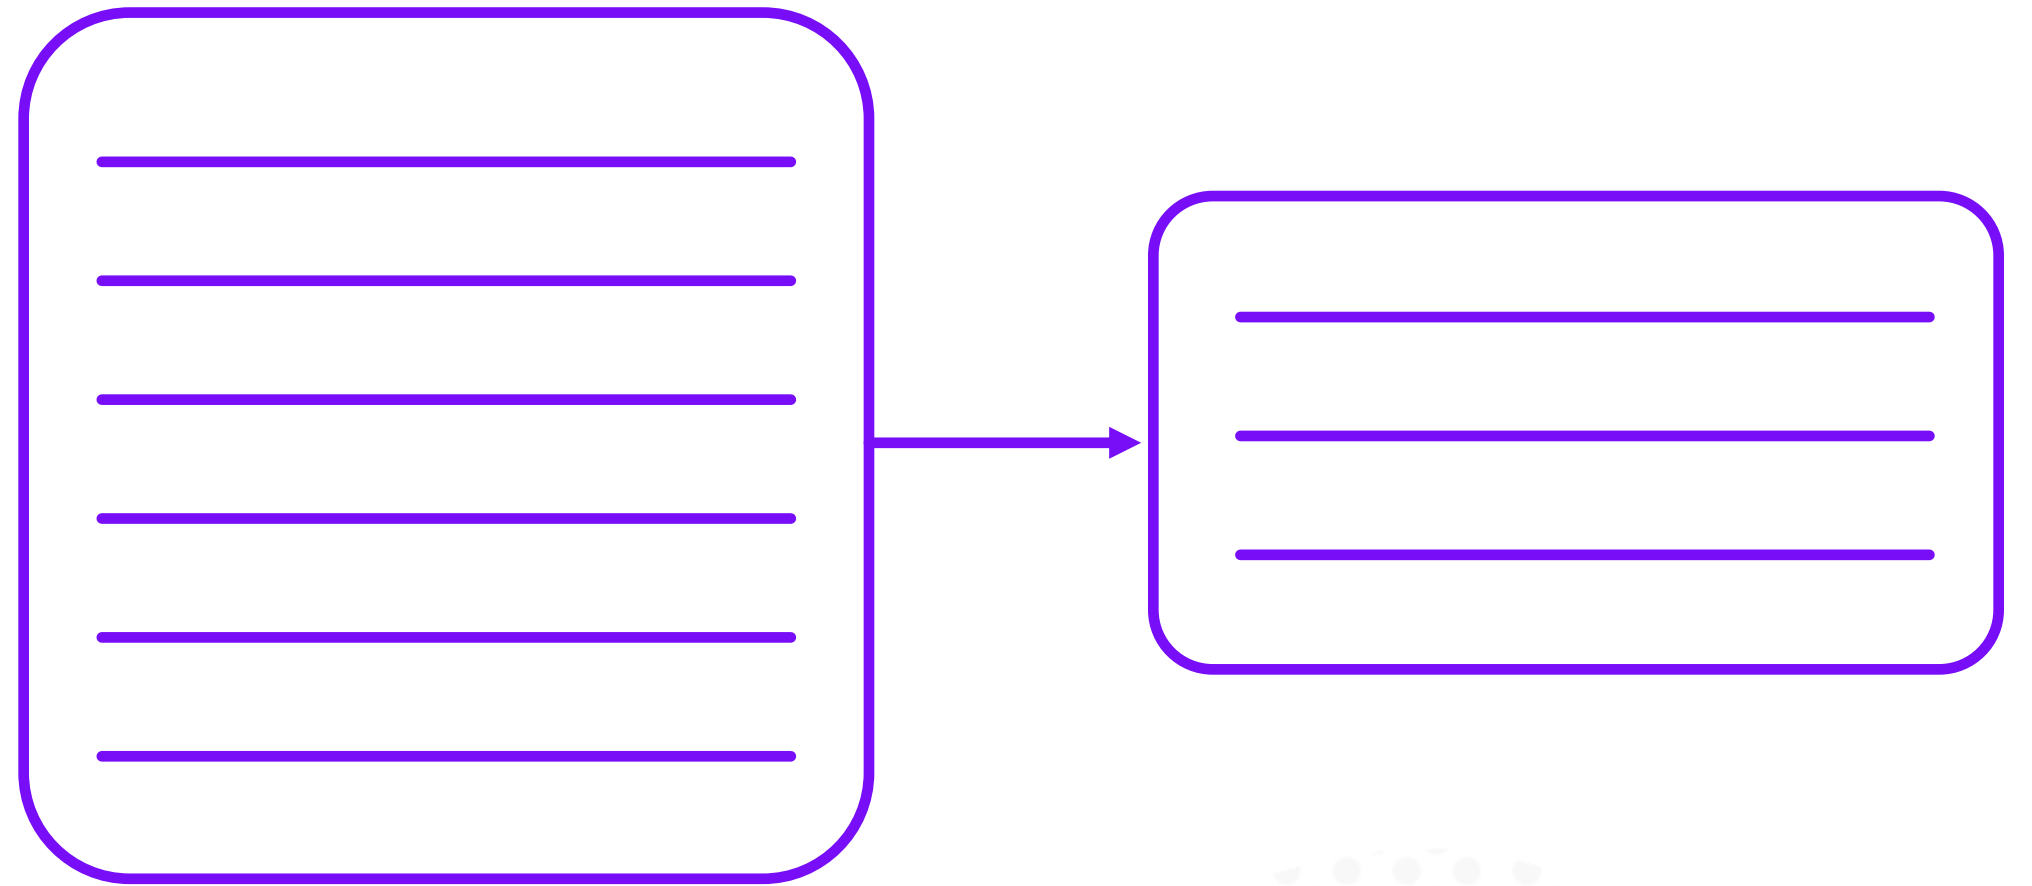

Summarizing Text

Summarizing and Optimizing Text

Demo

Summarize Text

- For a specific audience
- With a word or sentence limit
- With a specific focus

Expanding Text

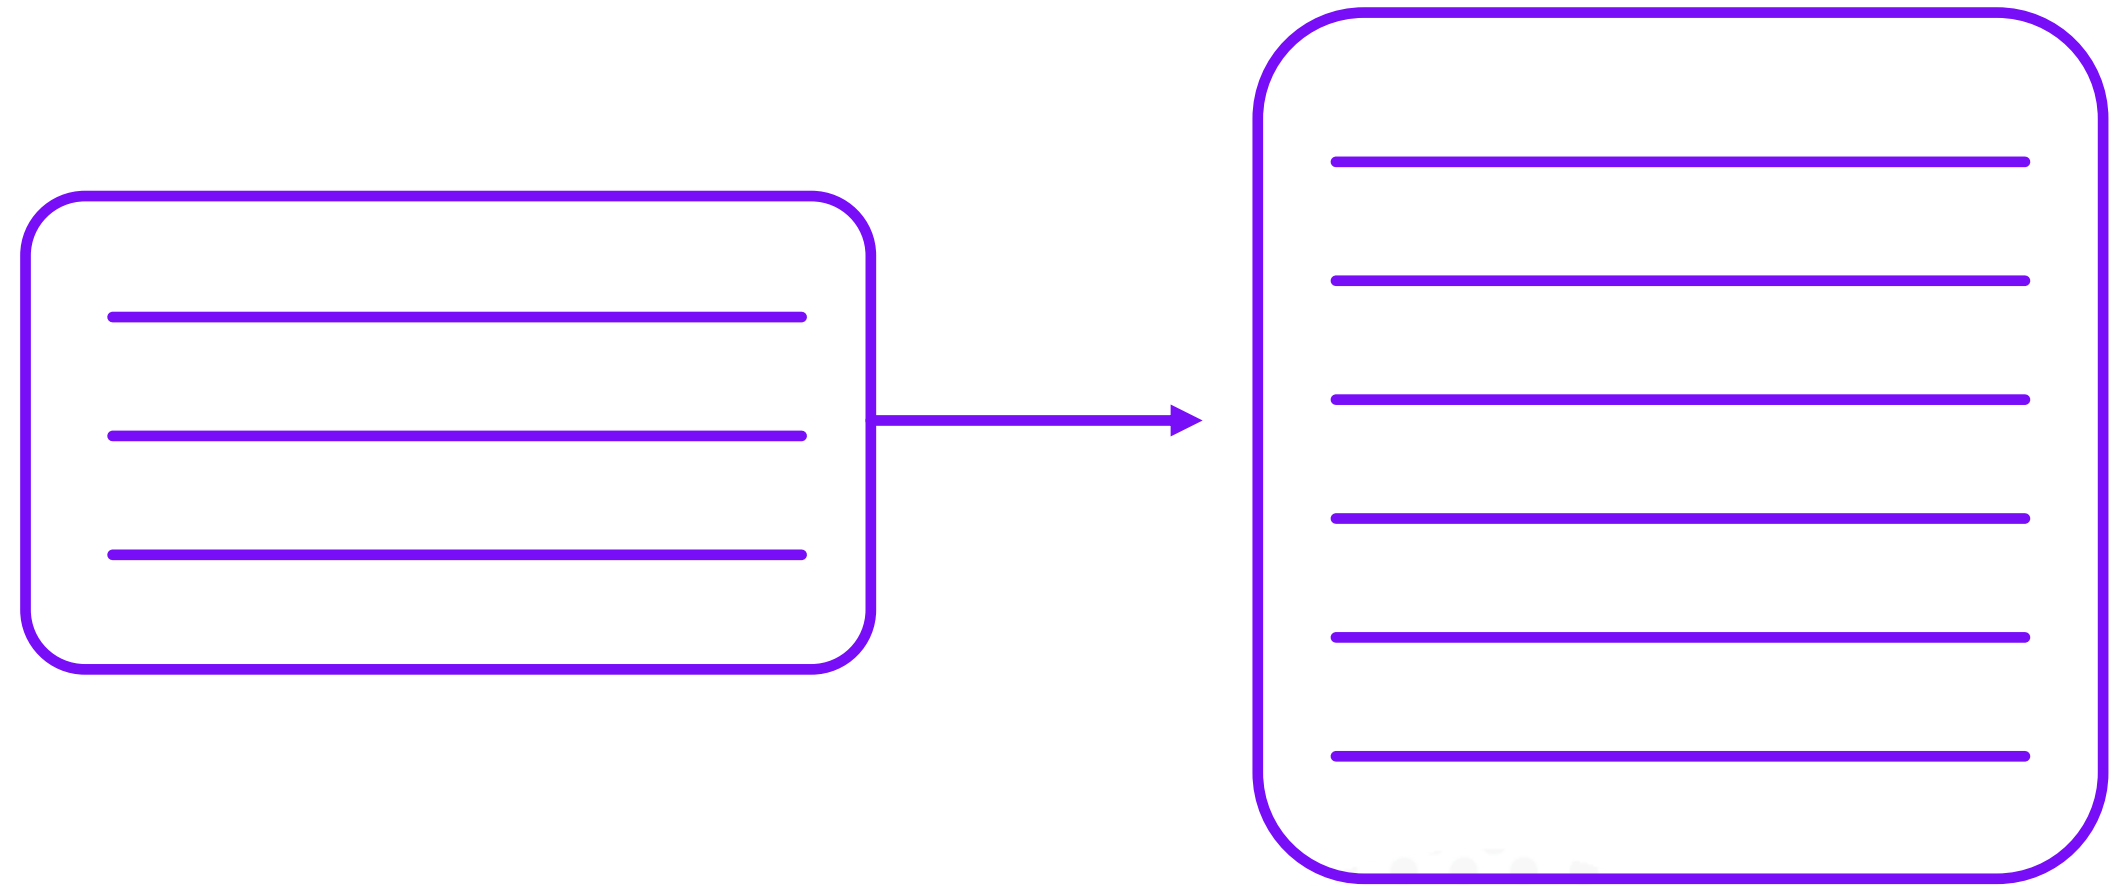

Expanding Text

Expanding Text

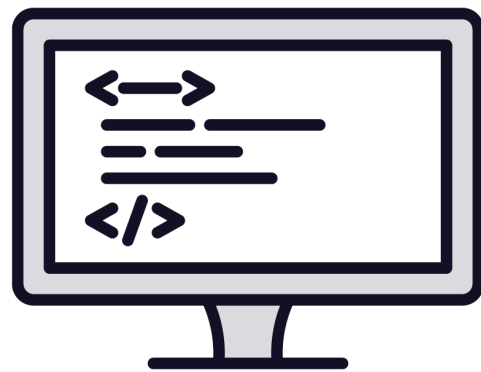

Demo

Expand text

- Based on a negative review
- Based on a positive review

Hands-on Challenge

Write an optimized prompt

Summarize the provided book reviews for a specific audience with word-limit constraints.

Text-to-image Generation

Text-to-image Generation

Overview

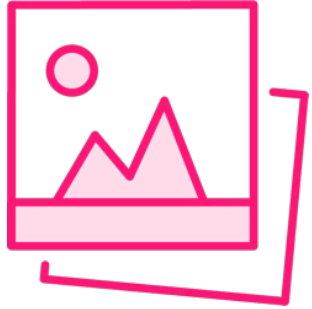

Image generation options

3 parts to an effective prompt

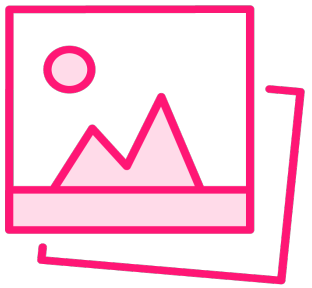

Tips for image generation

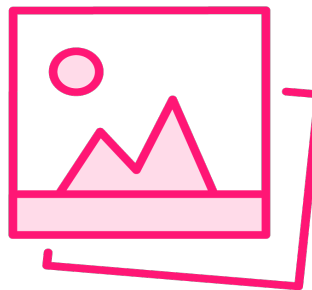

Image Generation Options

Generate brand-new images from a text prompt

Edit or retouch an existing image based on a text prompt

Create variations of an existing image

Tip for Image Generation

Effective prompts help the model learn to generate images that are realistic and accurate.

Effective Prompt for Image Generation

Subject

Description

Style

Sunset Prompt

Generate a vibrant sunset seascape in impressionist style.

Subject

Description

Style

Generated Sunset Images

Image 2

Image 3

Image 4

Tips for Image Prompts

Include 10 or more words

Include the subject and multiple adjectives

Include style keywords

Demo

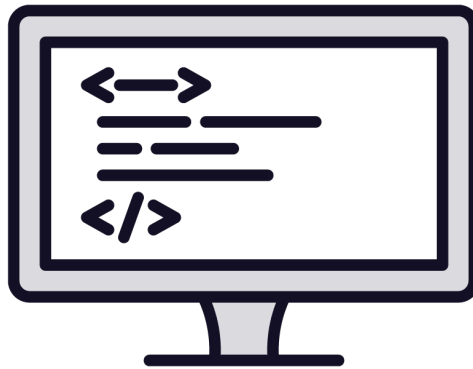

Image Generation Prompts

- Simple vs optimized prompts
 - A dog on a bike on the moon

Hands-on Challenge

Image Generation

Write an optimized prompt that contains the three elements: subject, description, and style. With DALL-E, users get full usage rights to commercialize the images they create with DALL-E, including the right to reprint, sell, and merchandise.

*** You will need to subscribe to the DALL-E API.**
